

STATE OF LOUISIANA

DEPARTMENT OF ENERGY AND NATURAL RESOURCES

BATON ROUGE, LOUISIANA

PERMIT NO. ISP00003

**IMMEDIATE PERMIT FOR THE CONSTRUCTION, INSTALLATION, OR
OPERATION OF A SOLAR POWER GENERATION FACILITY
ON OR BEFORE JANUARY 1, 2026**

ISSUED TO:

Hollis Creek Solar

Pursuant to La. R.S. §§ 30:1142(A), 1143(A), and 1145, the following Immediate Permit is issued by the Louisiana Department of Energy and Natural Resources (to be known as Louisiana Department of Conservation and Energy after October 1, 2025 (hereinafter, the "Department")) to administratively govern the above-named solar power generation facility (hereinafter, "Facility") with a footprint of seventy-five or more acres that has or will have commenced construction, installation, or operation on or prior to January 1, 2026.

FINDINGS

The Department makes the following findings:

1. Act 279 of the 2025 Regular Legislative Session ("Act") enacted La. R.S. § 30:1142, *et seq.*, under which, "[n]o person shall construct, install, or operate a solar power generation facility with a footprint of seventy-five or more acres without holding a permit issued by the department pursuant to this Part." See La. R.S. § 30:1143(A).
2. The Act further states that the solar facility siting requirements found in La. R.S. § 30:1144 "shall apply to any solar facility for which construction begins after January 1, 2026."
3. The effective date of the Act is August 1, 2025.
4. Therefore, a permit issued by the Department is administratively necessary to commence or continue the construction, installation, or operation of a solar power generation facility with a footprint of seventy-five or more acres in accordance with the requirements of Act 279 ("Immediate Permit").

5. The Immediate Permit does not concern, and is not conditioned upon, the siting, setback, or ambient noise restrictions set forth in Section 1144, nor the decommissioning plan and financial security requirements set forth in Section 1154(D).
6. A person or entity responsible for the Facility (“Owner/Operator”) submitted an Application for Immediate Permit to Construct, Install, or Operate a Solar Power Generation Facilities on or Before January 1, 2026 (“Application”) to the Department.
7. The Department reviewed the Application and all attached documentation for compliance with the applicable provisions of Act 279.
8. The Department has determined that the Facility’s Application is complete and complies with the applicable provisions of Act 279.

ORDER

NOW, THEREFORE, IT IS ORDERED THAT:

1. This Immediate Permit is issued effective August 1, 2025.
2. This Immediate Permit authorizes the Owner(s)/Operator(s) of the Facility to commence or continue construction, installation, or operation activities in accordance with the applicable provisions of Act 279.

IT IS FURTHER ORDERED THAT:

1. The Owner(s)/Operator(s) shall carry out, perform, operate, and maintain the Facility in accordance with the applicable provisions of Act 279.
2. The Owner(s)/Operator(s) acknowledges and agrees that the Department may request proof to support the status of the Facility declared on its Application. Acceptable forms of documentary evidence for each status category include, but are not limited to, the following:
 - a. In Operation:
 - i. Notice of commercial operation; final electrical inspection certificate(s); utility interconnection agreement; power purchase agreement; or generation data.
 - b. Under Construction:
 - i. Notice to proceed; inspection reports; time- and coordinate-stamped photographs of construction activities; equipment or material delivery receipts or bill(s) of lading.
 - c. To Be Constructed on or before January 1, 2026:
 - i. Notice(s) of lease; executed engineering, procurement, and construction agreement(s); building or zoning permit(s) issued prior to application submission.
3. If the Facility is declared as “To Be Constructed on or before Jan. 1, 2026,” the Owner(s)/Operator(s) must update the Department regarding the Facility’s status no later than

January 12, 2026, and provide proof that construction began before January 2, 2026. Failure to submit this update and sufficient documentation shall result in enforcement action as provided in La. R.S. 30:1142(A).

- 4. If the Facility is declared as “Under Construction,” the Owner(s)/Operator(s) shall update the Department when it begins operations.
- 5. The Owner(s)/Operator(s) shall notify the Department of any changes in ownership or operators by providing the information required on the Application. Providing revised Owner/Operator information is required to transfer this Immediate Permit, and failure to submit such information may result in enforcement action as provided in La. R.S. 30:1142(A).
